DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Figure 15 in Paper No. 15 is acknowledged.

Priority

2. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 08/940,941, filed on 9/30/97. ***Specification***

3. The amendment filed 7/14/03 is still objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the deletion of the paragraph: "In the prior art, ... specified payment conditions are satisfied." Introduces new matter.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 2613

5. Claims 18-22 and 28-47 are rejected under 35 U.S.C. 102(b) as being anticipated by Cookson et al (5,463,565) for the same reasons as set forth in Section 8 of the last office action, paper number 29, dated 7/29/03.

With respect to the newly added limitations, Cookson et al already discloses a single original signal (e.g. version A or B); and medium protection data (e.g. version data) which express for each predetermined data portion (e.g. block) of the main data a medium protection level (e.g. rated/unrated version) as a predetermined number of units (Fig. 7).

Response to Arguments

6. Applicant's arguments filed 10/29/03 have been fully considered but they are not persuasive.

In response to Applicant's argument on page 17 of the Remarks that Cookson et al includes additional structure that the entire information is provided in multiple formats, whereas it is not required by Applicant's invention, it must be noted that Cookson et al discloses the invention as claimed. The fact that it discloses additional structure not claimed is irrelevant.

Applicant asserts on pages 18-23 of the Remarks that Cookson et al fails to specify individual portions of the main data. However, Figure 7 illustrates the concept of such portions (e.g. blocks) to which reproduction protection is to be applied, and to specify, for each such individual portion, a degree of reproduction protection (e.g. rated/unrated) that is to be applied.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
